JOHN JACOB ASTOR REJECTED.

THE COACHING CLUB DECIDES THAT HE IS NOT A SUFFICIENTLY EXPERT WHIP TO BE ENTITLED TO MEMBERSHIP.

To the already long list of rejected applicants for admission to the Coaching Club the name of John Jacob Astor was added last Tuesday night. The club met as usual at the Knickerbocker Club, and Mr. Astor's name was presented. His applica-tion for membership was refused on the ground hat he was not yet as well advanced in the art of four-in-hand driving as the rules of the club require, and for this reason only Mr. Astor was rejected. It must be said here that Mr. Astor was not "blackbailed." The members of the club are, most of them, his intimate friends, but there is one inexorable law of the club, and it is: "No one snall be elligible to membership in the Coaching Club unless the candidate shall exhibit to the officers of the club satisfactory evidence of his ability to drive four horses." Now Mr. Astor, not having in the opinion of the members of the club shown such ability, was rejected until such time as he can demonstrate his powers as a competent whip, and when he does he will be elected to the club and gladly received. There is no fill feeling on either ade, and Mr. Astor will probably continue to "handle the ribbons" over his horses until he can satisfy the critical members of the club. cted. It must be said here that Mr. Astor was

Mr. Tracy was pre-eminently a painter of docs, and the pictures sold last night were therefore greatly restricted in scope. The total obtained for sixty-three canvasses was \$5,7750, an average of about \$22. The sale will be ended to-night.

MRS. BOURKE COCKRAN DEAD.

Mrs. Bourke Cockran died in her apartments at the Holland House at 5:40 yesterday afternoon. She had been ill for the last two years. She came here from Washington with her husband four weeks ago, coming on to obtain medical treatment. Her husband was with her at the time of her death. Mrs. Cockran, who was thirty-one years old, was the second daughter of John Mack, of No. 76 Park-ave. She had no children.

A NOISE WITH A TAIL.

From The London Globe. From The London Globe.

During the evidence in a case in the Probate Court on Wednesday, one of the witnesses spoke of a noise with "a tail to it." The new novelist must look to this. We are getting gradually familiar with scarlet, purple and other strangely colored emotions, and with adjectives dragged in from musical terminology, but a noise with a tail to it is something new. The only parallel we can think of in the older literature is beer with "a head on it."

We may say political journalism, it is Chauncey M. Depew. He looks surprised, but it is only a way he has when he recognizes a great truth. What would it be without him? His speeches are trenenant editorials, and they have exercised a tremendous power. All journalism, aside from the technical papers, is political journalism. Our government is a government of party; by one or the other must it be administered. The first function of the journal is the collection and publication of news, but there is a lottler purpose. It is as a leader that it becomes the master force in public life. The Civil War wrought a revolution in political journalism. In earlier days it was little more than political pamphleteering. But the modern paper, with its managerial genius, its intellectual equipment, no longer feeds upon the crumbs from the political table. Its allegiance, its fealty, is to the people, and it wields the omitipotent power of public opinion.

TRINITY'S SONS AT DINNER.

ANNUAL ASSEMBLAGE OF THE NEW-YORK ALUMNI.

THEY LUSTILY DEMONSTRATE THE ADVANTAGES

The annual dinner of the New-York Alumni Association of Trinity College was held last night at the Hotel Savoy, and the advantage of a small college over a large one was demonstrated to the complete satisfaction of every one present. Trinity may be small in the number of its graduates and students, but it shows up mightly when it comes "Trinity, in proportion to its numbers, can hold its own with any institution of learning in the country." The company of men who assembled in the banquet-room of the Hotel Savoy last night

seems to bear out the statement. Some of those at the tables were the Rev. Dr. Vibbert, rector of Trinity Chapel; Bishop Talbot, of Wyoming; John Sabine Smith, the Rev. Dr. Ralph Baldwin, Edward W. of the college, responded to the first toast. He said in part:

The college is growing in numbers, strength and reputation. So much is felt by all; but while those at a distance feel it in a general way, we who are engaged in work there feel it more strongly. There is a consciousness of substantiality, a confidence in the permanency and good character of the work done and an assurance of its real value that grows from day to day. We have had some small increase in number during the last year. There is a sense of advancement in the academic and moral tone of the community and of improvement in the several departments of work. We have had some additions to our endowment—not large in view of the sums given to more ambitious and pretentious institutions—but enough to make us feel easier as to resources. Within less than three years about \$150,000 has been added to our resources, mostly for the increase of the general or academic fund. While this cannot be used for the pressing needs of the moment it strengthens the general situation.

A comprehensive view of the work of the college shows that it has admitted altogether, since 1824–282 students, and graduated 1.111. The average annual admissions for the last ten years had been about forty. Four hundred and forty-five have been graduated and 123 remain in college. Nearly one-third of our living graduates received their degree since 1833.

We have a smaller proposition of men who are not in every way a credit to us than can be said of many colleges, and there are few who are not on the college, and there are few who are not contend of the control of Churchmen in Connecticut, and with two exceptions the strongest and most important academic institution in our Church.
